Announcements.

ROWLAND B. SPENCER announces
himself a candidate for County Court
Clerk of Lawrence county, subject to
the action of the Democratic party.
Election November 1909.

We are authorized to announce
JOHN M. WAUGH as a candidate for
Commonwealth's Attorney of the 32nd
Judicial District, subject to the action
of the Democratic party.

We are authorized to announce
J. B. HANNAH as a candidate for
Circuit Judge in the 32nd Judicial
district, subject to the action of the
Democratic party.

Now bring on your prosperity. Every
body is hungering and thirsting
for it. The Roosevelt panic has lasted
long enough to whet the appetite
for good times.

Tammany played traitor to Bryan
in New York City and will probably
lose control of the city government
at the next election as the result
of last Tuesday's work.

Judge J. B. Hannah announces in
this issue of the News that he is
a candidate for re-election to the
office of Circuit Judge, to be voted
for in November, 1909. The Judge's
record on the bench is not surpassed
in the State, and all law-loving citi-
zens indorse his able administration
of the important office of Circuit
Judge. He was elected to fill a
short term and would like to be
chosen to serve the regular term
following. This indorsement will
no doubt be given him most cheer-
fully by the party and people.

A few years ago John Sharpe Wil-
hams, Democratic leader in the
Lower House of Congress, sized up
Teddy Roosevelt as "a man very
much over-estimated by the Republi-
can party as a statesman, and
very much under-estimated by the
Democrats as a politician." Sub-
sequent developments have all gone
to prove the correctness of this de-
scription. Roosevelt is the rankest
politician who ever occupied the
office of President. The power given
him by the office was all used in
last Tuesday's election and it
counted for a good deal, of course.

Cure Your Dandruff

Why? Because it is annoying,
untidy. And mostly, because
it almost invariably leads to
baldness. Cure it, and save
your hair. Get more, too, at
the same time. All easily done
with Ayer's Hair Vigor, new
improved formula. Stop this
formation of dandruff!

Does not change the color of the hair.

Formula with each bottle
Show it to your
doctor
Ask him about it,
then do as he says

The new Ayer's Hair Vigor will certainly
do this work, because, first of all, it de-
stroys the germs which are the original
cause of dandruff. Having given this aid,
nature completes the cure. The scalp is
restored to a perfectly healthy condition.

BIG SANDY VALLEY

Receives Extended Editorial Atten-
tion in the Courier Journal.

The following is an editorial from
the Courier-Journal:

No region in Kentucky or in the
South has experienced greater in-
dustrial development during the past
six years than the Big Sandy Val-
ley.

A few years ago a traveling man
going up the valley could choose be-
tween the slow and uncertain push-
boat and the even slower and more
uncertain stage line, but today one
can go from Ashland to Elkhorn City
and enjoy the luxury of a par-
lor car. This development in trans-
portation facilities is typical of the
almost magical development in almost
every other line up this valley.
Six years ago the line was ex-
tended to Elkhorn City with a prom-
ise that it would shortly be pushed
through the mountains into Vir-
ginia and then on to the Atlantic
coast. The extension of this road
has made accessible one of the rich-
est bituminous coal fields in Amer-
ica and has given the people of
this section a vision of this val-
ley as a great industrial center, a
vision which they are already set-
ting out to realize. The richness of
this coal field has attracted the
attention of all American leading
coal operators, and, strange to say,
more investors are coming from
without than within the State. From
one end of the valley to the other
is a scene of great activity; mines
are being opened everywhere, spurs
are being pushed out from the rail-
road to these fields less accessible
for many years on occasional barge
of coal has found its way down the
river; now coal comes out by the
trainloads and finds a ready
market because of its excellent
quality.

While the coal is the chief pro-
duct, yet every other line of
activity is being stimulated. Towns,
for years dull and quiet, are now
taking on new life, substantial bank
buildings and modern hotels are
being erected; water works and elec-
tric light plants are being in-
stalled.

This activity is not confined to
the industrial lines, churches, schools
and colleges have taken on new life,
they have seen the vision and are
building for the future. The Pike-
ville Collegiate Institute has just
opened a woman's dormitory cost-
ing \$40,000. The Paintsville college
is just completing a hall, which
when finished will cost \$35,000.
At Louisa a fine building for the
Kentucky N. C. is just being com-
pleted, and at nearly every point they
have good graded schools, well
housed and well managed. Beautiful
and permanent homes are being
built.

The Big Sandy Valley has
long been known for its magnificent
scenery. From this standpoint it
equals, if it does not surpass, many
famous rivers and valleys of the
old world, and it surely cannot be
surpassed by any in America.

Right to Raise Logs.

The question of whether or not
it is a violation of the criminal laws
to raise logs which have sunken in
the rivers of Kentucky is to be de-
cided in Richmond, and the case is
being watched with interest, as
many men now earn a livelihood by
fishing out logs. John Folins and
William Eversole were arrested in
Frankfort recently on complaint of
the Southern Lumber Company, which
has a plant at Valley View, in
Madison county. They were taken
to Richmond for an examining trial.
Both men have been recovering logs
from the Kentucky River, and this
calling has been practiced for many
years on this and other rivers.
The logs are fished up, and if
they are branded are turned over to
their owners, who pay \$1 or \$1.25
for the recovered log. If the log is
not branded it belongs to the
finder.

No question of the right of these
men to raise these logs has ever
been brought up before.

Watch Repairing.

If your watch is worth repairing
at all it should be done right. The
prices charged by competent and hotel
workmen are about the same. After
the skilled watchmaker will charge
less, because he can tell what is to
be done and is not making a wild
guess. More watches are ruined by
fellows who are trying to learn this
delicate and scientific trade by
practicing on the public's time-
pieces than ever wear out or are
broken in any other way.

C. A. Bena at Conley's store, served
a full apprenticeship at the
trade and has had 42 years of ex-
perience. He also does all kinds of
jewelry repairing and engraving. All
work guaranteed by a good guaran-
tee.

Another Williamson Fire.

Williamson was again visited by
another destructive fire early Mon-
day morning. The large warehouse
of W. B. Elswick, contractor, was
burned to the ground. Mr. Elswick
had just placed over \$3,000 worth
of lumber in the building which was
entirely destroyed besides a large
number of tools, all of his books,
accounts, etc., in the office part of
the building. It is not known how
the fire started but it is thought
by many to be of incendiary origin.

The Russell Democrat says:
"The first person to subscribe for
the Democrat was W. G. Whit, now
a resident of Hamlet, N. C. Mr.
Whit was here on a visit to his
daughter, Mrs. Dr. Rathburn, while
our machinery was being installed,
called at the office and subscribed.
He was a resident of Russell un-
til two years ago, and occupied the
position of Supervisor for the C.
& O. Now he is the roadmaster of
the Sea Board Air Line."
Mr. Whit is a native of Lawrence
county, and has many friends here
who will read the above item with
interest.

Our Elegant Line of

FINE FURS.

With the first frosty mornings we are showing a superb assortment of "Quality" furs in all the new shapes and conceits for the season. Very special attention has been given in making selections of this line to see that we secured just what we wanted for exclusive trade at popular prices. In most instances we have selected prime winter killed skins and these furs are made to our order. All our finer furs have been selected in this way and you will at once note the difference between a stock selected with no such care and the usual hit or miss method of buying in special assortment.

OUR PRESENT SHOWING

comprises a beautiful line of muffs, scarfs, neck pieces, stoles, and fur sets complete including fur coats. Mink, Otter, Opossum, Fox, Marten Squirrel, and many other kinds—all favorites for the season and we have a complete and comprehensive showing to offer. In addition to a large line for grown ups we have furs for children that are as beautiful as can be bought anywhere and our prices on the entire line of furs will be found to represent the right kind of value.

Our basement department offers a special assortment of gas goods in mantels, globes, burners, inverted lights, etc., in fact a complete line, and the prices will be found to be economical and to represent values very much above the ordinary. Our line of mantels are absolutely the best procurable at the prices asked and we have placed in stock those that by actual trial and test have proven worthy of a place in this department of our store. You will find the basement an excellent place to go every time you visit the store because there is always "something doing."
